

Our plans fit your plans

Lumenos[®] HSA Plus

Our plans help fit the way you live

In a world that's constantly changing, one thing's for certain: it's important to have health care coverage you can depend on — coverage designed to help fit your budget, and your way of life.

Since 1936, Anthem Blue Cross and Blue Shield has provided health care coverage and security to our Connecticut neighbors.

You're in charge of your health and budget, and our Individual health care plans help keep it that way. We still offer a wide range of coverage options as unique as you are. And if you have any questions, we're here to help.

Why do you need health care coverage?

These days, an average stay in the hospital can cost more than \$20,000.** The financial risk you take without health coverage just isn't worth it. Not only does health care coverage help you stay healthy, it also gives you added security, because you know you have help to protect against the high cost of unexpected medical bills.

Experience you can rely on

Anthem is committed to helping simplify your life and improving your health. That's why we offer:

- **One of the largest provider networks in Connecticut.** With over 10,000 PPO doctors and almost 30 hospitals* throughout the state, chances are your doctor is one of ours.
- **Coverage that travels with you.** No matter where life takes you, your health coverage goes with you. And the Blue Cross and Blue Shield Association's BlueCard® program makes it easy to access providers throughout the country.
- **Choose your doctor and compare your health care costs at anthem.com.** Once you're a member, all you have to do is register at anthem.com and start feeling better about your choices with features like:
 - *Find a Doctor:* Use our online Provider Directory to find hospitals, pharmacies and other specialists in your area - and check whether they are cost-saving network providers — all at the click of a mouse.
 - *Estimate Your Cost:* Save time and money by comparing the quality and safety of providers as well as the cost of common procedures at health care facilities in your area.
 - *Zagat Health Surveys:* See what other patients have said about the doctors and hospitals you're considering. Add your own doctor recommendation, too!

Register at anthem.com and have a wealth of health information right at your fingertips.

*BCBSA Provider Data Counts, 2012.

**Based on 2008 weighted national estimates from HCUP Nationwide Inpatient Sample (NIS), Agency for Healthcare Research and Quality (AHRQ), based on data collected by individual states and provided to AHRQ by the states. (Average stay of 3.8 days; average cost to uninsured of \$22,512.)

Some definitions so we're all on the same page

Network Discounts: With Anthem, you have access to one of the largest provider networks in the state. These network (or participating) providers have agreed to accept lower costs for their covered services to Anthem members – similar to volume discounts. These negotiated costs help reduce the overall cost of covered medical services, including your share of those costs.

This is true whether you are paying the entire cost for covered services (such as while you are meeting your deductible), or whether we are sharing the cost. With over 10,000 PPO doctors and almost 30 hospitals,* chances are your provider already participates. Just visit a network provider to take advantage of the savings.

With our PPO plans, you can always choose to receive services outside the network, but your share of the cost will be greater.

Cost Sharing: The costs of medical care today can be staggering. Health care coverage from Anthem can help protect you against these high costs. With most health care coverage, you pay a monthly premium, then you share some of the cost of covered medical care with the company that provides your health care coverage. The level of cost sharing you choose directly impacts your premium amount. The more you are willing to share in the cost, the lower your premium. With Anthem, you can choose your level of protection and the level of cost sharing that works best for your health care needs and budget.

Deductible is the amount you have to pay each calendar year for covered services before your health care plan starts paying. Amounts met toward the deductible do not carry over from year to year. For some services, the plan will even begin to pay before the deductible is met. Usually, the higher a plan's deductible, the lower the premium. Network and non-network deductibles are separate and do not accumulate toward each other.

Coinsurance is the percentage of the cost of covered services that you will be responsible for, after your annual deductible is met. With some plans, you have a choice of coinsurance levels. Much like your deductible, selecting a higher coinsurance typically lowers your monthly premium because it increases your share of the cost.

Out-Of-Pocket Maximum is the most that you would pay in a calendar year for deductible and coinsurance for in-network covered services. Once you reach this maximum, the plan pays at 100% for most network services for the rest of the calendar year. There is a separate out-of-pocket maximum for non-network services. Network and non-network out-of-pocket maximums are separate and do not accumulate toward each other.

Prescription Drugs are medications that must be authorized for use by your doctor. Anthem offers varying levels of prescription drug coverage. Depending on the plan, you may have coverage for generic drugs or generic and brand-name drugs.

Generic Drugs are prescription drugs that typically have been in use for some time and can be manufactured and distributed by numerous companies, so their cost is usually much lower. Generic drugs must, by law, contain the same active ingredients as their brand-name equivalent and have the same clinical benefit.

Brand-Name Drugs are prescription drugs that are manufactured and marketed under a registered name. They are usually patented and may be exclusively offered by certain manufacturers.

Formulary is a list of prescription drugs our health care plans cover. They may include generic, preferred brand-name and specialty drugs that have been rigorously reviewed and selected by a committee of practicing doctors and clinical pharmacists for their quality and effectiveness. We've negotiated lower prices on these formulary drugs, so you'll save when your doctor prescribes medication from our formularies. There can be different formularies for different health care plans.

Health Savings Account (HSA) is a special bank account that can be set up by a member enrolled in a qualified HSA-compatible high deductible health plan if they choose. Contributions to this account can be made with certain tax advantages and funds from the account can be used for qualified health care expenses. See the insert from our preferred banking partner for more details and consult your tax advisor.

Lumenos[®] HSA Plus

Is this the right plan for you?

The Lumenos HSA Plus health plan is designed to give you more control over your health care costs. It helps you focus on getting healthy and staying that way.

Prescription Drug Coverage

Lumenos HSA Plus not only puts you in charge of your health care dollars, it can help you use those dollars for generic and brand-name prescription drugs in the way that best suits you.

Once your deductible is met, there is a coinsurance, if applicable, for covered prescription drugs. But even while you are meeting your deductible, you benefit from lower negotiated rates on prescription drugs at network pharmacies nationwide. There's no need to have a different deductible for prescriptions; it all works as one.

You will receive the highest level of benefits by asking your physician to prescribe a generic drug whenever possible. If you choose to purchase a brand-name drug when a generic drug is available, you will be responsible for the difference in the cost between brand-name and generic, plus your coinsurance.

And since you decide how to spend it, your Health Savings Account dollars can be used to pay for eligible prescription drugs – while you are meeting your deductible.

Note: Visit anthem.com for more information on eligible expenses.

How to Customize your Lumenos HSA Plus Plan

Choose your deductible: You can usually lower your premium by choosing a higher deductible. Simply choose the deductible and premium combination that works best for you. Remember, any covered member can contribute to some or all of the policy deductible and out-of-pocket maximum, whether the policy covers one member or a whole household.

Use your Health Savings Account the way you want: Your HSA, if you choose to open one, is funded by you. So, it is yours to use for qualified health care expenses covered by the plan, or those not covered at all, like contact lenses. Your HSA is also yours to keep if you ever leave the plan; you won't lose those dollars if they're not used. In fact, the carryover from year to year can help you save for future financial needs. See the enclosed insert from our preferred banking partner for more information.

Policies of this category are designed to provide, to persons insured, coverage for major hospital, medical, and surgical expenses incurred as a result of a covered accident or sickness. Coverage is provided for daily hospital room and board, miscellaneous hospital services, surgical services, anesthesia services, in-hospital medical services, and out-of-hospital care, subject to any deductibles, co-payment provisions, or other limitations which may be set forth in the policy.

Who can apply?

To be eligible for membership as a policyholder, the applicant must:

1. Be a resident of Connecticut.
2. Be between 19 and 64 years of age.
3. Not have any other type of health insurance. If the applicant has other insurance coverage in-force, he or she must replace that coverage.
4. Agree to pay for the cost of premium that Anthem Blue Cross and Blue Shield (Anthem) requires.
5. Satisfy the following requirements to guarantee renewability:
 - a) Eligibility criteria continues to be met.
 - b) There are no acts, practices or omissions that constitute fraud or intentional misrepresentation of material fact found on the application.
 - c) Membership has not been terminated by Anthem under the terms of this policy.

If an individual is under 26 years of age and is covered either by his or her parents or guardians as defined by the State of Connecticut, he or she is eligible for coverage provided he or she meets eligibility criteria specified in the Eligibility policy stated above. Anthem requires the parent/guardian to sign the applications as the applicant for the insured. Married couples and domestic partners that meet eligibility requirements may also apply. Families with dependent children under age 26 are eligible as well.

Please note: For HSA-qualified health plans, while the health plan recognizes domestic partners, the IRS does not. Therefore, if you want to contribute to an HSA, you will need to enroll in two separate individual health plans.

Renewal/termination of coverage

Membership will not be terminated solely due to medical risk factors, such as health status or current or past medical conditions. We may not renew your coverage for the following reasons:

1. Nonpayment of required premiums.
2. Any act, practice or omission that constitutes fraud or intentional misrepresentation of material fact found on the application.
3. If all policies of the same form number are not renewed. Any such action will be in accordance with applicable state and Federal laws.

Pre-existing conditions

For applicants age 19 and older, this plan does not cover Pre-Existing Conditions diagnosed or treated during the 12 months immediately preceding your Effective Date. The Pre-Existing Condition Limitation Period may last up to 12 months from your Enrollment Date. Credit from prior Creditable Coverage will be applied, if applicable, to reduce your specific Pre-Existing Condition Limitation Period. You will be notified in writing by Anthem exactly how many months you will be subject to this exclusion.

Premium rates

The amount, time and manner of payment of premiums shall be determined by Anthem and shall be subject to the approval of the State of Connecticut Insurance Department.

In the event of any change in premium, the Subscriber will be given notice of at least 30 days prior to such change. Payment of the premium by the Subscriber shall serve as notice of the Subscriber's acceptance of the change.

Benefit determination

There are times when we may need to do a benefit review for a health care service you plan to receive or have already received. We do this to find out what your plan will cover for that service. During the review, we take a look at the terms, benefits, limitations and exclusions of your particular plan. This means we may check to see if your plan covers the service, if you've already reached a benefit limit for the service, and if you can see a provider outside of the network. We may also review other aspects of your plan.

Utilization management and case management

Our utilization management (UM) services offer a structured program that monitors and evaluates member care and services. The UM clinical team, which is made up of health care professionals who hold active professional licenses and certificates, perform the prior authorization, concurrent and retrospective review processes explained below. The UM team follows criteria to assist in decisions regarding requests for health care and other covered benefits, and complies with specific time frames to ensure requests are handled in a timely manner. Our case management services help you to better understand and manage your health conditions.

Prior authorization/pre-admission review

Prior Authorization (also known as pre-service or pre-admission review) is the process of reviewing a request for a medical procedure or service before it takes place. The review occurs to ensure that:

1) the procedure is medically necessary; and 2) the procedure meets your health care plan's specific guidelines prior to being performed.

Requests for Prior Authorization may include, but are not limited to:

- inpatient hospitalizations
- outpatient procedures
- diagnostic procedures
- therapy services
- durable medical equipment

Prior Authorization is required for all elective inpatient admissions and certain outpatient services. The review process evaluates medical necessity and the best level of care, and assigns an expected length of stay if needed.

Concurrent review

Concurrent review is an ongoing evaluation of a member's hospital stay, as well as ongoing extensions of services that may be needed (such as acute care facilities, skilled nursing facilities, acute rehabilitation facilities and home health care services). The review includes physicians and member-assigned health care professionals (or member authorized representative), and takes place by telephone, electronically and/or on-site.

Concurrent review uses pre-set decision criteria in order to approve medical care (deemed to be medically necessary) and assign the right level of care for continued medical treatment. Review decisions are based on the medical information obtained at the time of the review. Concurrent review also helps to coordinate care with behavioral health programs.

Retrospective review

The retrospective review process consists of obtaining information to determine medical necessity as it relates to services provided without approval or notice ahead of time (e.g., without pre-service notification). Relevant clinical information is required for the retrospective review process. Review decisions are based only on the medical information the doctor or other provider had at the time the member received medical care.

Case management

Case managers are licensed health care professionals who work with you to help you understand your benefits and support your health care needs. The case manager works with you and your doctor to help you better understand and manage your health conditions.

What our Individual health plans do not cover

The following limitations and exclusions will help you understand what your health care plan does not include. These are just some of the plans' limitations and exclusions. In addition to the other limitations, conditions and exclusions set forth elsewhere, no benefits will be provided for expenses related to the services, supplies, conditions or situations described in this section. These items and services are not covered even if you receive them from your Provider or according to your Provider's Referral. If a service is not covered, then all services performed in conjunction with that service are not covered. Anthem is the final authority for determining if services or supplies are covered and/or Medically Necessary.

Notices of privacy practices

We've combined a couple of required annual notices. Please take a few minutes to read about:

- State notice of privacy practices
- Health Insurance Portability and Accountability Act (HIPAA) notice of privacy practices
- Breast reconstruction surgery benefits

State notice of privacy practices

As mentioned in our HIPAA notice, we must follow state laws that are stricter than the federal HIPAA privacy law. This notice explains your rights and our legal duties under state law. This applies to life insurance benefits, in addition to health, dental and vision benefits that you may have.

Your personal information

We may collect, use and share your nonpublic personal information (PI) as described in this notice. PI identifies a person and is often gathered in an insurance matter. We may collect PI about you from other persons or entities, such as doctors, hospitals or other carriers. We may share PI with persons or entities outside of our company — without your OK in some cases. If we take part in an activity that would require us to give you a chance to opt out, we will contact you. We will tell you how you can let us know that you do not want us to use or share your PI for a given activity. You have the right to access and correct your PI. Because PI is defined as any information that can be used to make judgments about your health, finances, character, habits, hobbies, reputation, career and credit, we take reasonable safety measures to protect the PI we have about you. A more detailed state notice is available upon request.

HIPAA notice of privacy practices

This notice describes how health, vision and dental information about you may be used and disclosed, and how you can get access to this information with regard to your health benefits. Please review it carefully. We keep the health and financial information of our current and former members private, as required by law, accreditation standards and our rules. This notice explains your rights. It also explains our legal duties and privacy practices. We are required by federal law to give you this notice.

Your protected health information

We may collect, use and share your Protected Health Information (PHI) for the following reasons and others as allowed or required by law, including the HIPAA Privacy rule:

For payment: We use and share PHI to manage your account or benefits; or, to pay claims for health care you get through your plan. For example, we keep information about your premium and deductible payments. We may give information to a doctor's office to confirm your benefits.

For health care operations: We use and share PHI for our health care operations. For example, we may use PHI to review the quality of care and services you get. We may also use PHI to provide you with case management or care coordination services for conditions like asthma, diabetes or traumatic injury.

For treatment activities: We do not provide treatment. This is the role of a health care provider, such as your doctor or a hospital. But, we may share PHI with your health care provider so that the provider may treat you.

To you: We must give you access to your own PHI. We may also contact you to let you know about treatment options or other health-related benefits and services. When you or your dependents reach a certain age, we may tell you about other products or programs for which you may be eligible. This may include individual coverage. We may also send you reminders about routine medical checkups and tests.

To others: You may tell us in writing that it is OK for us to give your PHI to someone else for any reason. Also, if you are present and tell us it is OK, we may give your PHI to a family member, friend or other person. We would do this if it has to do with your current treatment or payment for your treatment. If you are not present, if it is an emergency, or you are not able to tell us it is OK, we may give your PHI to a family member, friend or other person if sharing your PHI is in your best interest.

As allowed or required by law: We may also share your PHI, as allowed by federal law, for many types of activities. PHI can be shared for health oversight activities. It can also be shared for judicial or administrative proceedings, with public health authorities, for law enforcement reasons, and with coroners, funeral directors or medical examiners (about decedents). PHI can also be shared with organ donation groups for certain reasons, for research, and to avoid a serious threat to health or safety. It can be shared for special government functions, for Workers' Compensation, to respond to requests from the U.S. Department of Health and Human Services, and to alert proper authorities if we reasonably believe that you may be a victim of abuse, neglect, domestic violence or other crimes. PHI can also be shared as required by law. If you are enrolled with us through an employer-sponsored group health plan, we may share PHI with your group health plan. We and/or your group health plan

may share PHI with the sponsor of the plan. Plan sponsors that receive PHI are required by law to have controls in place to keep it from being used for reasons that are not proper.

Authorization: We will get an OK from you in writing before we use or share your PHI for any other purpose not stated in this notice. You may take away this OK at any time, in writing. We will then stop using your PHI for that purpose. But, if we have already used or shared your PHI based on your OK, we cannot undo any actions we took before you told us to stop.

Genetic Information: If we use or disclose PHI for underwriting purposes, we are prohibited from using or disclosing PHI that is the genetic information of an individual for such purposes.

Your rights

Under federal law, you have the right to:

- Send us a written request to see or get a copy of certain PHI, or ask that we correct your PHI that you believe is missing or incorrect. If someone else (such as your doctor) gave us the PHI, we will let you know so you can ask him or her to correct it.
- Send us a written request to ask us not to use your PHI for treatment, payment or health care operations activities. We are not required to agree to these requests.
- Give us a verbal or written request to ask us to send your PHI using other means that are reasonable. Also, let us know if you want us to send your PHI to an address other than your home if sending it to your home could place you in danger.
- Send us a written request to ask us for a list of certain disclosures of your PHI. Call Customer Service at the phone number printed on your identification (ID) card to use any of these rights. Customer Service representatives can give you the address to send the request. They can also give you any forms we have that may help you with this process.

How we protect information

We are dedicated to protecting your PHI, and have set up a number of policies and practices to help make sure your PHI is kept secure. We keep your oral, written and electronic PHI safe using physical, electronic, and procedural means. These safeguards follow federal and state laws. Some of the ways we keep your PHI safe include securing offices that hold PHI, password-protecting computers, and locking storage areas and filing cabinets. We require our employees to protect PHI through written policies and procedures. These policies limit access to PHI to only those employees who need the data to do their job. Employees are also required to wear ID badges to help keep people who should not have access out of areas where sensitive data is kept. Also, where required by law, our affiliates and nonaffiliates must protect the privacy of data we share in the normal course of business. They are not allowed to give PHI to others without your written OK, except as allowed by law.

Potential impact of other applicable laws

HIPAA (the federal privacy law) generally does not preempt, or override, other laws that give people greater privacy protections. As a result, if any state or federal privacy law requires us to provide you with more privacy protections, then we must also follow that law in addition to HIPAA.

Complaints

If you think we have not protected your privacy, you can file a complaint with us. You may also file a complaint with the Office for Civil Rights in the U.S. Department of Health and Human Services. We will not take action against you for filing a complaint.

Contact information

Please call Customer Service at the phone number printed on your ID card. Representatives can help you apply your rights, file a complaint or talk with you about privacy issues.

Copies and changes

You have the right to get a new copy of this notice at any time. Even if you have agreed to get this notice by electronic means, you still have the right to a paper copy. We reserve the right to change this notice. A revised notice will apply to PHI we already have about you, as well as any PHI we may get in the future. We are required by law to follow the privacy notice that is in effect at this time. We may tell you about any changes to our notice in a number of ways. We may tell you about the changes in a member newsletter or post them on our website. We may also mail you a letter that tells you about any changes.

If you ever need a benefit-covered mastectomy, we hope it will give you some peace of mind to know that your Anthem benefits comply with the Women's Health and Cancer Rights Act of 1998, which provides for:

- Reconstruction of the breast(s) that underwent a covered mastectomy
- Surgery and reconstruction of the other breast to restore a symmetrical appearance

All applicable benefit provisions will apply, including existing deductibles, copays and/or coinsurance.

Pre-Existing Condition Limitation Exclusion (for Members age 19 and older) – This Subscriber Agreement does not cover charges for Pre-Existing Conditions diagnosed or treated during the 12 months immediately preceding the original Effective Date of continuous coverage during the Pre-Existing Condition Limitation Period. *Sometimes during the course of a routine screening procedure, abnormalities or problems may be identified that require immediate intervention or additional diagnosis. If this occurs and your provider performs additional necessary procedures, the services will be considered diagnostic and or surgical rather than a screening, depending on the claim for services submitted by your provider. This may result in possible differences in your deductible, (if any) copayments and/or coinsurance.
