

How to Read the Medigap Plans Summary Table

When you see a check in a column of the table, it means that the associated plan covers 100% of the listed benefit. If you see a percentage, it means the plan covers that percentage of the listed benefit. If a column is empty, it means that the associated plan does not include that benefit.

Note: All Medigap plans require you to pay your deductible before they will cover coinsurance (unless the Medigap policy itself is designed to pay the deductible).

The following Medigap plans are available for sale until May 31, 2010.

* For plans F and J, there is also a high-deductible option. If you elect that option, it means that you would have to pay for Medicare-covered costs up to the deductible amount of \$2,000 in 2010 before your Medigap plan pays for anything.

For Plans K and L, once you meet your out-of-pocket maximum (\$4,620 for K and \$2,310 for L) and your annual Part B deductible (\$155 in 2010), the Medigap plan pays for 100% of covered services for the rest of the year. The out-of-pocket maximum is defined as the most you would pay for coinsurance and copayments.
