Why do you need health care coverage?

These days, a single day in the hospital can cost thousands of dollars. The financial risk you take without health coverage just isn't worth it. Not only does health care coverage help you stay healthy, it also gives you added security, because you know you're protected against the high cost of unexpected medical bills.

Some definitions so we're all on the same page

Network Discounts: With Anthem Blue Cross, you have access to one of the largest provider networks in the state. These network (or participating) providers have agreed to accept lower costs for their covered services to Anthem members — similar to volume discounts. These negotiated costs help reduce the overall cost of covered medical services, including your share of those costs.

This is true whether you are paying the entire cost for covered services (such as while you are meeting your deductible), or whether we are sharing the cost. With over 80,000 PPO doctors and nearly 315 hospitals, chances are your provider already participates. Just visit a network provider to take advantage of the savings.

With our PPO plans, you can always choose to receive services outside the network, but your share of the cost will be greater.

Cost-Sharing: The costs of medical care today can be staggering. Health care coverage from Anthem can help protect you against these high costs. With most health care coverage, you pay a monthly premium, then you share some of the cost of covered medical care with the company that provides your health care coverage. The level of cost-sharing you choose directly impacts your premium amount. The more you are willing to share in the cost, the lower your premium. With Anthem, you can choose your level of protection and the level of cost-sharing that works best for your health care needs and budget.

Deductible is the amount you have to pay each calendar year for covered services before your health care plan starts paying. For some services, the plan will even begin to pay before the deductible is met. Usually, the higher a plan's deductible, the lower the premium. In some cases, you may also have a separate deductible for certain services such as prescription drugs.

Coinsurance is the percentage of the cost of covered services that you will be responsible for, after your annual deductible is met. With some plans, you have a choice of coinsurance levels. For some services, your coinsurance will be 0%. Much like your deductible, selecting a higher coinsurance typically lowers your monthly premium because it increases your share of the cost.

Copayment is a specific dollar amount you have to pay for certain covered services.

Out-Of-Pocket Maximum is the most that you would pay in a calendar year for deductible and coinsurance for in-network covered services. Once you reach this maximum, the plan pays at 100% for most services for the rest of the calendar year.

Prescription Drugs are medications that must be authorized for use by your doctor. Anthem offers varying levels of prescription drug coverage. Depending on the plan, you may have coverage for generic drugs or generic and brand name drugs.

Generic Drugs are prescription drugs that typically have been in use for some time and can be manufactured and distributed by numerous companies, so their cost is usually much lower. Generic drugs must, by law, contain the same active ingredients as their brand name equivalent and have the same clinical benefit.

Brand Name Drugs are prescription drugs that are manufactured and marketed under a registered name. They are usually patented and may be exclusively offered by certain manufacturers.

Specialty Drugs are typically high cost, scientifically engineered drugs used to treat complex, chronic conditions. They require special handling and usually must be shipped directly to the user.

Formulary is a list of prescription drugs our health care plans cover. They include generic, brand name, and specialty drugs that have been rigorously reviewed and selected by a committee of practicing doctors and clinical pharmacists for their quality and effectiveness. We've negotiated lower prices on these formulary drugs, so you'll save when your doctor prescribes medication from our formularies. There can be different formularies for different health care plans.

This is because network dentists have agreed to accept our negotiated rates for services they provide to you.
