A man and a woman are smiling and looking towards the camera while standing next to their bicycles on a dirt path. The man is wearing a light blue long-sleeved shirt and khaki shorts, with sunglasses on his head. The woman is wearing a green jacket over a white top and black leggings. The background is a blurred natural setting with trees and foliage.

Our plans fit the way you live.

In a world that's constantly changing, one thing's for certain: it's important to have health care coverage you can depend on – coverage designed to help fit your budget, and your way of life.

For over 40 years, Anthem has provided health care coverage and security to our Nevada neighbors. And now, we're pleased to offer these same individual health care plans with added benefits and features of the Patient Protection and Affordable Health Care Act.

You're in charge of your health and budget, and our Individual health care plans help keep it that way. We still offer a wide range of coverage options as unique as you are. And if you have any questions, we're here to help.

Sounds like a plan.

Experience you can rely on

Anthem is committed to helping simplify your life and improving your health. That's why we offer:

- **One of the largest provider networks in Nevada.**
With more than 2,500 doctors and nearly 40 hospitals throughout the state, chances are your doctor is one of ours.
- **A choice of plans to fit your budget and lifestyle.**
No matter where you are in life, we've got a plan designed to fit your health coverage needs, as well as your budget.
- **Optional dental and term life insurance.**
To enhance your health and your family's financial future, we also offer dental and term life coverage and make it easy to enroll.
- **Coverage that travels with you.**
No matter where life takes you, your health coverage goes with you. And the BlueCard® program makes it easy to access providers throughout the country.

Why do you need health care coverage?

These days, a single day in the hospital can cost thousands of dollars. Not only does health coverage help you stay healthy, it also gives you added security, because you know you're protected against the high cost of unexpected medical bills.

Some definitions so we're all on the same page

Network Discounts: With Anthem Blue Cross and Blue Shield you have access to one of the largest provider networks in the state. These network (or participating) providers have agreed to accept lower costs for their covered services to Anthem members — similar to volume discounts. These negotiated costs help reduce the overall cost of covered medical services, including your share of those costs.

This is true whether you are paying the entire cost for covered services (such as while you are meeting your deductible), or whether we are sharing the cost. With over 2,500 doctors and nearly 40 hospitals, chances are your provider already participates. Just visit a network provider to take advantage of the savings.

With our PPO plans, you can always choose to receive services outside the network, but your share of the cost will be greater.

Cost-Sharing: The costs of medical care today can be staggering. Health care coverage from Anthem Blue Cross and Blue Shield can help protect you against these high costs. With most health care coverage, you pay a monthly premium, then you share some of the cost of covered medical care with the company that provides your health care coverage. The level of cost-sharing you choose directly impacts your premium amount. The more you are willing to share in the costs, the lower your premium. With Anthem, you can choose your level of protection and the level of cost-sharing that works best for your health care needs and budget.

Deductible is the amount you have to pay each calendar year (annually) for covered services before your health care plan starts paying. For some services, the plan will even begin to pay before the deductible is met. Usually, the higher a plan's deductible, the lower the premium. In some cases, you may also have a separate deductible for certain services such as prescription drugs.

Coinsurance is the percentage of the cost of covered services that you will be responsible for, after your annual deductible is met. With some plans, you have a choice of coinsurance levels. Much like your deductible, selecting a higher coinsurance typically lowers your monthly premium because it increases your share of the cost.

Copayment (or Copay) is a specific dollar amount you have to pay for certain covered services.

Out-Of-Pocket Maximum is the most that you would pay in a calendar year for deductible and coinsurance for network covered services. Once you reach this maximum, the plan pays at 100% for most services for the rest of the calendar year.

Prescription Drugs are medications that must be authorized for use by your doctor. Anthem offers varying levels of prescription drug coverage. Depending on the plan, you may have coverage for generic drugs or generic and brand name drugs.

Generic Drugs are prescription drugs that typically have been in use for some time and can be manufactured and distributed by numerous companies, so their cost is usually much lower. Generic drugs must, by law, contain the same active ingredients as their brand name equivalent and have the same clinical benefit.

Brand Name Drugs are prescription drugs that are manufactured and marketed under a registered name. They are usually patented and may be exclusively offered by certain manufacturers.

Specialty Drugs are typically high cost, scientifically engineered drugs used to treat complex, chronic conditions. They require special handling and usually must be shipped directly to the user.

Formulary is a list of prescription drugs our health care plans cover. They include generic, brand name, and specialty drugs that have been rigorously reviewed and selected by a committee of practicing doctors and clinical pharmacists for their quality and effectiveness. We've negotiated lower prices on these formulary drugs, so you'll save when your doctor prescribes medication from our formularies. There can be different formularies for different health care plans.

ClearProtectionSM Is this the right plan for you?

ClearProtection is one of our lower-priced plans with an innovative plan design that helps limit your share of the costs for major medical expenses, such as surgery and hospitalizations. In addition:

- You'll have immediate benefits for your first two doctors' office visits.
- There are two deductibles that work together to help you meet your out-of-pocket maximum.
- Once your out-of-pocket maximum is met, the plan pays 100% of the costs for most network covered services.

ClearProtection Plan Highlights

This plan offers a valuable combination of affordable coverage with some immediate benefits, plus a broad range of benefits once the out-of-pocket maximum is met.

Features:

- Some of our lowest monthly rates and immediate coverage for first two doctors' office visits.
- Access to discounts on ALL covered services from network providers while meeting your out-of-pocket maximum.
- 100% coverage for most network covered services once your out-of-pocket maximum is met.
- Coverage for generic and brand name prescription drugs.
- Preventive care benefits help focus on keeping you healthy.

You should know:

- This plan features two deductibles that work together to help you meet your total out-of-pocket maximum.
- Deductibles for Network and Non-Network covered services are the same dollar amount and accumulate separately. The same is true for Out-of-Pocket Maximums.
- This plan has its own Drug Formulary.
- Maternity benefits are not included with this plan.

Prescription Drug Coverage

The ClearProtection covers both generic and brand name prescription drugs. This plan also uses a special Formulary.

How ClearProtection Works

ClearProtection has two deductibles:

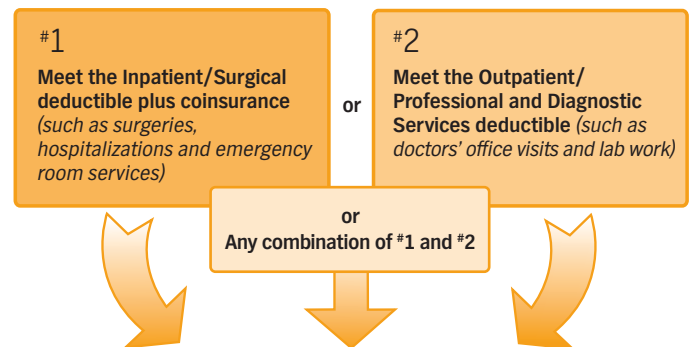

1. INPATIENT/SURGICAL SERVICES

This is the lower of the two deductibles to help you access benefits faster for these higher-cost services.

2. OUTPATIENT/PROFESSIONAL AND DIAGNOSTIC SERVICES

This deductible is equal to your out-of-pocket maximum. So even if you only use outpatient services, once you meet this deductible, you will have also met your out-of-pocket maximum.

These two deductibles work together to help you reach your total out-of-pocket maximum. Depending on your health care needs, you can satisfy your total out-of-pocket maximum in any of the following ways:

The Total Out-Of-Pocket Maximum Equals:

\$4,500 (for \$1,000 deductible plan)

\$6,800 (for \$3,300 deductible plan)

\$8,500 (for \$5,000 deductible plan)

Once this amount is satisfied, the plan pays 100% of the costs for most network covered services.

Note: Deductibles and Out-of-Pocket Maximums are based on a calendar year (January 1 - December 31).

CoreShareSM Is this the right plan for you?

If you're looking for a simple plan design with some of our lowest rates, CoreShare could be the plan that's right for you. CoreShare offers a range of deductibles and higher cost-sharing helps lower your monthly premiums.

CoreShare Plan Highlights

This plan can be ideal for individuals who want affordable protection against significant medical expenses.

Features:

- A simple plan design with some of our lowest monthly rates.
- Higher percentage of member cost-sharing in exchange for lower premiums.
- Once the deductible is met, we'll share 50% of the costs at our negotiated rates up to \$3,500, then we'll cover the rest for most covered services.
- Preventive care benefits help focus on keeping you healthy.
- Coverage for prescription drugs.

You should know:

- This plan has its own Drug Formulary.
- Maternity benefits are not included with this plan.

Other Optional Coverage: You can add more protection for you and your family by purchasing optional dental and life insurance or autism benefits. See the information at the back of this brochure or ask your Anthem agent for more details.

Prescription Drug Coverage

The cost of prescription drugs can be staggering so CoreShare includes prescription drug coverage to help you manage those costs.

- **Drug Formulary:** This is a special list of prescription drugs the CoreShare plan covers. We've negotiated lower prices on these formulary drugs, so you'll save when your doctor prescribes from the Plan Formulary posted at www.wellpointnextrx.com/Formulary1.
- **Tier 1:** These drugs have the lowest copay and include generic medications.
- **Tier 2:** These drugs have a higher copay than those in Tier 1 and include formulary brand name medications.
- **Tier 3/Specialty:** These drugs have a higher copay or coinsurance than those in Tier 2 and may include specialty drugs which are typically high-cost, scientifically engineered drugs.

How to Customize your CoreShare Plan

With CoreShare, you have some choice and flexibility to change the plan to better meet your needs. CoreShare offers a choice of:

Deductible: You can usually lower your premium by choosing a higher deductible. Simply choose the deductible and premium combination that works best for you.

Coinsurance: CoreShare offers a choice of coinsurance levels depending on the deductible you choose. Choosing a higher deductible can take your coinsurance for covered services to zero if you'd like to pay more toward your calendar year deductible first.

Facility Copayment: Similar to the coinsurance percentage, if you choose a \$3,500 or higher deductible, you can eliminate the facility copayment requirement, and you will only be responsible for any deductible or coinsurance. Otherwise, there is a copayment that will apply for inpatient hospital stays or outpatient surgeries.

Things you need to know before you buy...

SmartSense® Plus, CoreShare,SM Premier, Lumenos® HSA Plus and ClearProtectionSM

**Before choosing a health care plan,
please review the following information,
along with the other materials enclosed.**

To enroll, you must be:

- At least 19 years of age (not to exceed 64 3/4 years of age) to be eligible as the main subscriber. Child dependents under the age of 19 must apply and be enrolled with at least one parent or legal guardian (age 19 years or older)
- A permanent legal resident of Nevada

Medical Underwriting Requirement

We believe the cost of our plans should be consistent with your expected health care needs and risk factors. That's why Anthem offers various levels of coverage. To determine individual medical risk factors, all enrollments are subject to medical underwriting. Depending on the results of the underwriting review, a number of things may happen:

- You may be offered coverage at the standard premium rate
- You may be offered the plan you selected at a higher rate
- You may not qualify for the plan(s) listed in the brochure
- You may be offered an alternate plan

If you have a significant medical condition and don't qualify for the plan you've chosen or if you have discontinued group coverage, please contact your Anthem representative for information regarding other Individual coverage options.

Rate Determinations

For Individual policies, rates are determined as follows:

- Rates are based on age, gender, benefit plan, family size, geographic location and tobacco use.
- For families with more than three children, the family rate is capped at three children.
- When a member or spouse attains an age that requires a rate change to a new category, the adjustment will be made on the policy anniversary date and the premium will be automatically adjusted to the new rate.
- Rates are subject to change with 60-day written notice.

Waiting Periods

For applicants age nineteen (19) and older there is a 12-month waiting period for coverage of any health condition, whether physical or mental, for which medical advice, diagnosis, care or treatment

was recommended or received within 6 months preceding the coverage effective date. If you apply for coverage within 63 days of terminating your membership with another 'creditable' health care benefits plan, you may use your prior coverage for credit toward the 12-month waiting period. Anthem will credit the time you were enrolled in the previous plan. The pre-existing condition limitation does not apply to applicants under age nineteen (19). Consult with your Anthem agent or representative if you have a question about the underwriting process.

Guaranteed Renewability Of All Individual Health Policies

Anthem will not cancel or refuse to renew any Individual policy, except for the following reasons:

- Nonpayment of premium
- Any act, practice or omission that constitutes fraud or an intentional misrepresentation of material fact by the insured
- Anthem elects to discontinue offering all Individual policies
- The state insurance commissioner finds that the continuation of the coverage would not be in the best interests of the policyholders
- The state insurance commissioner finds that the product form is obsolete and is being replaced with comparable coverage

Nevada Summary Of Benefits Form

Nevada law requires carriers to make available a Nevada Summary of Benefits Form, which is intended to facilitate comparison of health plans. The form must be provided automatically within three business days to a potential policyholder who has expressed interest in a particular plan. The carrier also must provide the form, on oral or written request, within three business days to any person who is interested in coverage under, or who is covered by, a health care benefits plan of the carrier. If you would like a copy of the state mandated Nevada Summary of Benefits Form, which provides information on health plan benefits, provider contract arrangements and other information, please contact your Anthem agent. For complete details about benefits, procedures, limitations and exclusions, please refer to the Summary of Benefits Form and Certificate. In the event of a conflict between anything printed in this document and the Certificate, the terms of the Certificate will prevail.

Utilization Management and Case Management

Our Utilization Management (UM) services offer a structured program that monitors and evaluates member care and services. The UM clinical team, which is made up of health care professionals who hold active professional licenses and certificates, perform the prior authorization, concurrent and retrospective review processes explained below. The UM team follows criteria to assist in decisions regarding requests for health care and other covered benefits, and complies with specific timeframes to ensure requests are handled in a timely manner. Our case management services help you to better understand and manage your health conditions.

Prospective Review / Pre-Admission Review

Prospective review (also known as pre-service or pre-admission review) is the process of reviewing a request for a medical procedure or service before it takes place. The review occurs to ensure that:

1) the procedure is medically necessary and 2) the procedure meets your health care plan's specific guidelines prior to being performed. Requests for prospective review may include but are not limited to:

- inpatient hospitalizations
- outpatient procedures
- diagnostic procedures
- therapy services
- durable medical equipment

Prospective review is required for all elective inpatient admissions and certain outpatient services. The review process evaluates medical necessity and the best level of care and assigns expected length of stay if needed.

Concurrent Review

Concurrent review is an ongoing evaluation of a member's hospital stay, as well as ongoing extensions of services that may be needed (such as acute care facilities, skilled nursing facilities, acute rehabilitation facilities, and home health care services). The review includes physicians, member-assigned health care professionals (or member authorized representative) and takes place by telephone, electronically and/or onsite.

Concurrent review uses pre-set decision criteria in order to approve medical care (deemed to be medically necessary) and assign the right level of care for continued medical treatment. Review decisions are based on the medical information obtained at the time of the review. Concurrent review also helps to coordinate care with behavioral health programs.

Retrospective Review

The retrospective review process consists of obtaining information to determine medical necessity as it relates to services provided without approval or notice ahead of time (e.g. without pre-service notification).

Relevant clinical information is required for the retrospective review process. Review decisions are based only on the medical information the doctor or other provider had at the time the member received medical care.

Case Management

Case managers are licensed healthcare professionals who work with you to help you understand your benefits and support your health care needs. The case manager works with you and your doctor to help you better understand and manage your health conditions.

Allowable charge means the contracted amount for participating providers or the maximum benefit allowance for non-participating providers. Anthem's determination of allowable charge is the maximum amount approved for any particular service. Deductible, coinsurance, or other cost sharing amounts are based on this allowance and are the amounts the member pays the provider.

This disclosure statement provides only a brief description of some important features and limitations of your policy. The certificate itself sets forth in the detail the rights and obligations of both you and the insurance company. It is important that you review the certificate once you are enrolled.

Coverage for treatment as part of a clinical trial:

Includes coverage for medical treatment provided in a Phase I, Phase II, Phase III or Phase IV clinical trial for the treatment of cancer or in a Phase II, Phase III, or Phase IV study or clinical trial for the treatment of chronic fatigue syndrome conducted in the state of Nevada.

Coverage for medical treatment is limited to:

- Any drug or device approved for sale by the Food and Drug Administration.
- The cost of any reasonably necessary health care services required from the medical treatment or complications thereof arising out of the medical treatment provided in the clinical trial.
- The initial consultation to determine whether the person is eligible to participate in a clinical trial.
- Health care services required for the clinically appropriate monitoring of the person during the clinical trial.

Coverage for the management and treatment of diabetes

Includes coverage for medication, equipment, supplies, and appliances that are medically necessary for the treatment of diabetes type I, type II, and gestational diabetes.

Coverage for self-management of diabetes, including:

- The training and education provided to a person covered under the contract after initial diagnosis of diabetes which is medically necessary for the care and management of diabetes, including, without limitation, counseling in nutrition and the proper use of equipment and supplies for the treatment of diabetes.
- Training and education which is medically necessary as a result of a subsequent diagnosis that indicates a significant change in the symptoms or condition of the program of self-management of diabetes.
- Training and education which is medically necessary because of the development of new techniques and treatment for diabetes.

Medically Necessary

An intervention that is or will be provided for the diagnosis, evaluation and treatment of a condition, illness, disease or injury and that Anthem, subject to a member's right to appeal, solely determines to be:

- Medically appropriate for and consistent with the symptoms and proper diagnosis or treatment of the condition, illness, disease or injury.
- Obtained from a physician and/or licensed, certified or registered provider.
- Provided in accordance with applicable medical and/or professional standards.
- Known to be effective, as proven by scientific evidence, in materially improving health outcomes.
- The most appropriate supply, setting or level of service that can safely be provided to the member and which cannot be omitted consistent with recognized professional standards of care (which, in the case of hospitalization, also means that safe and adequate care could not be obtained as an outpatient).
- Cost-effective compared to alternative interventions, including no intervention ("cost effective" does not mean lowest cost).
- Not experimental/investigational.
- Not primarily for the convenience of the member, the member's family or the provider.
- Not otherwise subject to an exclusion under the Certificate.

The fact that a physician and/or provider may prescribe, order, recommend or approve care, treatment, services or supplies does not, of itself, make such care, treatment, services or supplies medically necessary.

Allowable Charge Reimbursement for benefits paid, except as provided below, is the allowable charge. The allowable charge is the dollar amount determined and approved by Anthem for covered services and procedures. Your applicable cost sharing requirements are based on the allowable charge.

For PPO and participating providers, the allowable charge is the contracted amount. PPO and participating providers have signed agreements to accept the contracted amount as payment in full. The contracts between Anthem and its providers include a “hold harmless” clause that provides that a member cannot be liable to the provider for moneys owed by Anthem for health care services covered under this certificate.

For non-participating providers, the allowable charge is the maximum benefit allowance. The member must pay any difference between Anthem’s maximum benefit allowance and the non-participating provider’s charge, except as provided below.

NOTE: Anthem will reimburse covered services received from a non-participating provider on the basis of billed charges rather than the maximum benefit allowance in the following circumstances:

- Emergency care (when rendered either within or outside the State of Nevada)
- Where inpatient hospital care at a non-participating provider is necessary due to the nature of treatment
- Where inpatient hospital care at a non-participating provider is necessary due to participating provider hospital capacity

In all other situations the maximum benefit allowance does apply.

“Emergency medical condition” means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) so that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in one of the following conditions:

1. Placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;
2. Serious impairment to bodily functions; or
3. Serious dysfunction of any bodily organ or part.

“Emergency services” means, with respect to an emergency medical condition:

1. A medical screening examination that is within the capability of the emergency department of a hospital, including ancillary services routinely available to the emergency department to evaluate such emergency medical condition, and
2. Within the capabilities of the staff and facilities available at the hospital, such further medical examination and treatment to stabilize the patient.

The term **“stabilize”** means, with respect to an emergency medical condition:

To provide such medical treatment of the condition as may be necessary to assure, within reasonable medical probability, that no material deterioration of the condition is likely to result from or occur during the transfer of the individual from a facility. With respect to a pregnant woman who is having contractions, the term “stabilize” also means to deliver (including the placenta), if there is inadequate time to effect a safe transfer to another hospital before delivery or transfer may pose a threat to the health or safety of the woman or the unborn child.

Allowable Charge: Reimbursement for covered services is based upon allowable charge as determined by Anthem Blue Cross and Blue Shield. Allowable charge means the contracted amount for participating providers or the maximum benefit allowance for non-participating providers. Anthem's determination of allowable charge is the maximum amount approved for any particular service. Deductible, coinsurance, or other cost sharing amounts are based on this allowance and are the amounts the member pays the provider.

This disclosure statement provides only a brief description of some important features and limitations of your policy. The certificate itself sets forth in the detail the rights and obligations of both you and the insurance company. It is important that you review the certificate once you are enrolled.

Coverage for treatment as part of a clinical trial:

Includes coverage for medical treatment provided in a Phase I, Phase II, Phase III or Phase IV clinical trial for the treatment of cancer or in a Phase II, Phase III, or Phase IV study or clinical trial for the treatment of chronic fatigue syndrome conducted in the state of Nevada.

Coverage for medical treatment is limited to:

- Any drug or device approved for sale by the Food and Drug Administration.
- The cost of any reasonably necessary health care services required from the medical treatment or complications thereof arising out of the medical treatment provided in the clinical trial.
- The initial consultation to determine whether the person is eligible to participate in a clinical trial.
- Health care services required for the clinically appropriate monitoring of the person during the clinical trial.

Coverage for the management and treatment of diabetes

Includes coverage for medication, equipment, supplies, and appliances that are medically necessary for the treatment of diabetes type I, type II, and gestational diabetes.

Coverage for self-management of diabetes, including:

- The training and education provided to a person covered under the contract after initial diagnosis of diabetes which is medically necessary for the care and management of diabetes, including, without limitation, counseling in nutrition and the proper use of equipment and supplies for the treatment of diabetes.
- Training and education which is medically necessary as a result of a subsequent diagnosis that indicates a significant change in the symptoms or condition of the program of self-management of diabetes.
- Training and education which is medically necessary because of the development of new techniques and treatment for diabetes.

Medically Necessary

An intervention that is or will be provided for the diagnosis, evaluation and treatment of a condition, illness, disease or injury and that Anthem, subject to a member's right to appeal, solely determines to be:

- Medically appropriate for and consistent with the symptoms and proper diagnosis or treatment of the condition, illness, disease or injury.
- Obtained from a physician and/or licensed, certified or registered provider.
- Provided in accordance with applicable medical and/or professional standards.
- Known to be effective, as proven by scientific evidence, in materially improving health outcomes.
- The most appropriate supply, setting or level of service that can safely be provided to the member and which cannot be omitted consistent with recognized professional standards of care (which, in the case of hospitalization, also means that safe and adequate care could not be obtained as an outpatient).
- Cost-effective compared to alternative interventions, including no intervention ("cost effective" does not mean lowest cost).
- Not experimental/investigational.
- Not primarily for the convenience of the member, the member's family or the provider.
- Not otherwise subject to an exclusion under the Certificate.

The fact that a physician and/or provider may prescribe, order, recommend or approve care, treatment, services or supplies does not, of itself, make such care, treatment, services or supplies medically necessary.

Allowable Charge Reimbursement for benefits paid, except as provided below, is the allowable charge. The allowable charge is the dollar amount determined and approved by Anthem for covered services and procedures. Your applicable cost sharing requirements are based on the allowable charge.

For PPO and participating providers, the allowable charge is the contracted amount. PPO and participating providers have signed agreements to accept the contracted amount as payment in full. The contracts between Anthem and its providers include a “hold harmless” clause that provides that a member cannot be liable to the provider for moneys owed by Anthem for health care services covered under this certificate.

For non-participating providers, the allowable charge is the maximum benefit allowance. The member must pay any difference between Anthem’s maximum benefit allowance and the non-participating provider’s charge, except as provided below.

NOTE: Anthem will reimburse covered services received from a non-participating provider on the basis of billed charges rather than the maximum benefit allowance in the following circumstances:

- Emergency care (when rendered either within or outside the State of Nevada)
- Where inpatient hospital care at a non-participating provider is necessary due to the nature of treatment
- Where inpatient hospital care at a non-participating provider is necessary due to participating provider hospital capacity

In all other situations the maximum benefit allowance does apply.

“Emergency medical condition” means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) so that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in one of the following conditions:

1. Placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;
2. Serious impairment to bodily functions; or
3. Serious dysfunction of any bodily organ or part.

“Emergency services” means, with respect to an emergency medical condition:

1. A medical screening examination that is within the capability of the emergency department of a hospital, including ancillary services routinely available to the emergency department to evaluate such emergency medical condition, and
2. Within the capabilities of the staff and facilities available at the hospital, such further medical examination and treatment to stabilize the patient.

The term **“stabilize”** means, with respect to an emergency medical condition:

To provide such medical treatment of the condition as may be necessary to assure, within reasonable medical probability, that no material deterioration of the condition is likely to result from or occur during the transfer of the individual from a facility. With respect to a pregnant woman who is having contractions, the term “stabilize” also means to deliver (including the placenta), if there is inadequate time to effect a safe transfer to another hospital before delivery or transfer may pose a threat to the health or safety of the woman or the unborn child.

Provider Directories

Copies of provider directories for all products offered by Anthem may be obtained by calling the customer service department or accessing the information on our Internet site at www.Anthem.com.

Provider Network

Under Anthem PPO plans, members choose physicians, hospitals and other health care providers from the Anthem preferred provider organization (PPO) network. Using the PPO network can mean substantial savings. If care is received outside the PPO network, the member will pay a higher deductible, coinsurance and charges over the Allowable Charge.
