Please Note: Benefits are subject to modification for subsequently enacted state or federal legislation.

Endnotes for Shield Saver 4000[†]

- 1 Member is responsible for copayment in addition to any charges above allowable amounts. The coinsurance indicated is a percentage of allowable amounts. Preferred providers accept Blue Shield's allowable amounts as full payment for covered services. Non-preferred providers can charge more than these amounts. When members use non-preferred providers, they must pay the applicable copayment plus any amount that exceed Blue Shield's allowable amount. Charges in excess of the allowable amount do not count toward the calendar-year deductible or out-of-pocket maximum. Payments applied to your calendar year deductible accrue towards the out-ofpocket maximum.
- For non-emergency services and supplies received from non-preferred radiology centers, Blue Shield's payment is limited to \$150 per day. Members are responsible for all charges that exceed \$150 per day. For non-emergency services and supplies received from non-preferred hospitals, Blue Shield's payment is limited to \$300 per day. Members are responsible for all charges that exceed \$300 per day.
- 3 Benefit is available prior to meeting any deductible.
- For non-emergency services and supplies received from a non-preferred hospital or facility, Blue Shield's payment is limited to \$300 per day. Members are responsible for all charges that exceed \$300 per day.
 Participating ambulatory surgery centers may not be available in all areas. Regardless of their availability, you can obtain outpatient
- 5 Participating ambulatory surgery centers may not be available in all areas. Regardless of their availability, you can obtain outpatient surgery services from a hospital, or an ambulatory surgery center affiliated with a hospital with payment according to your health plan's hospital services benefits. Blue Shield's payment is limited to \$150 per day. Members are responsible for all charges that exceed \$150 per day.
- 6 Bariatric surgery is covered when pre-authorized by the Plan. However, for members residing in Imperial, Kern, Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara and Ventura counties ("Designated Counties"), bariatric surgery services are covered only when performed at designated contracting bariatric surgery facilities and by designated contracting surgeons; coverage is not available for bariatric services from any other preferred provider and there is no coverage for bariatric services from non-preferred providers. In addition, if prior authorized by the Plan, a member in a Designated County who is required to travel more than 50 miles to a designated bariatric surgery facility will be eligible for limited reimbursement for specified travel expenses for the member and one companion. Refer to the EOC for further benefit details.
- 7 This plan's prescription drug coverage is on average equivalent to or better than the standard benefit set by the federal government for Medicare Part D (also called creditable coverage). Because this plan's prescription drug coverage is creditable, you do not have to enroll in a Medicare prescription drug plan while you maintain this coverage. However, you should be aware that if you have a subsequent break in this coverage of 63 days or more anytime after you were first eligible to enroll in a Medicare prescription drug plan, you could be subject to a late enrollment penalty in addition to your Medicare Part D premium.
- 8 Contraceptive drugs and devices covered under the outpatient prescription drug benefits do not require a copayment and will not be subject to the calendar-year deductible. However, if a brand-name contraceptive is requested when a generic equivalent is available, the member will still be responsible for paying the difference between the cost to the Plan for the brand-name contraceptive and its generic drug equivalent. In addition, select contraceptives may need prior authorization to be covered without a copayment.
- 9 If a member or physician requests a brand name drug when a generic drug equivalent is available, and the brand name drug deductible has been satisfied, the member is responsible for paying the difference between the Participating Pharmacy contracted rate for the brand name drug and its generic drug equivalent, as well as the applicable generic drug copayment. The difference in cost will not accrue to the deductible or out-of-pocket maximum.
- 10 Blue Shield has contracted with a specialized health care service plan to act as our mental health services administrator (MHSA). The MHSA provides mental health and chemical dependency services, other than inpatient services for medical acute detoxification, through a separate network of MHSA participating providers. Inpatient medical acute detoxification is a medical benefit provided by Blue Shield preferred or non-preferred (not MHSA) providers.
- 11 For MHSA participating providers, the initial visit is treated as if the condition was a severe mental illness or serious emotional disturbance of a child. For MHSA non-participating providers, the initial visit is treated as if it were an MHSA participating provider.
- 12 Includes insertion of IUD as well as injectable contraceptives for women.
